

Tapestry

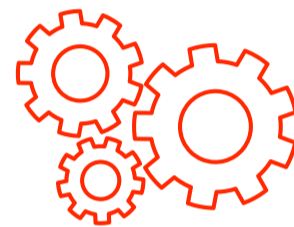

Non-profits and co-operatives want to take ownership of assets to scale their impact.

Canadians want to make investments with positive social and environmental impacts.

is catalyzing a vibrant community investment marketplace to finance iconic community projects.

Process

Fine-tuning the process of raising community investment to make it easier and more accessible.

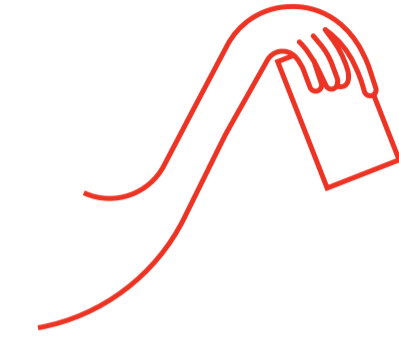

Platform

Providing an online, secure, scalable platform to manage community investors.

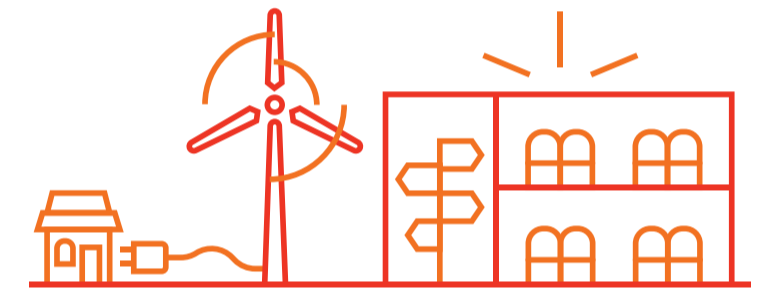

Policy

Building government support for community ownership.

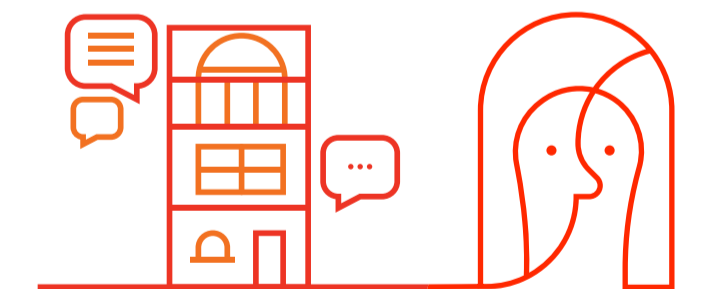

1

Community investors make a fair return by investing in projects they believe in.

2

Non-profits and co-ops own assets that allow them to scale their impact.

3

Communities are better served with access to the spaces and services they need.

By 2022, 80 iconic community projects across Canada will have been successfully financed through community bonds.
